

## Day 1 Evidence and Clues

### INTERROGATION

H.T. Amal

**Detective:** Did you see anybody between 5 AM and 6 AM?

**Amal:** I was trying to work, but the snoring from that obnoxious oaf next door was driving me crazy.

**Detective:** Do you mean Del Packard?

**Amal:** Yes, he was asleep at his desk, as usual, and snoring like a freight train. Even Ms. Leeter, who stopped by at about 5AM, asked me how I could stand it.

**Detective:** How long was she there?

**Amal:** We chatted for about ten minutes. She closed my door when she left, but I could still hear him.

---

Justin Coder

**Detective:** You left you meeting with Dee and Hugh around 5 AM Where did you go?

**Coder:** I had to go to the restroom. I stopped at Rita's office on the way to borrow a magazine.

**Detective:** How long were you occupied?

**Coder:** I hope no one went in there for awhile.

**Detective:** Answer the question!

**Coder:** Ten minutes, alright! I dropped the dumb magazine back off with Rita and went straight back to the meeting.

---

Hugh  
Gottmale

**Detective:** What was the purpose of the meeting you had at 4 AM on the day of the murder.

**Gottmale:** Coder and I had been working on a new program that we wanted Dee to debug for us. Since there was no other work to do until the doors opened, we thought it was a good time to get her attention.

**Detective:** You and Justin Coder were collaborating?

**Gottmale:** Yes. It was a pet project of mine at my former company and could be of great benefit to Webster Networks.

---

Del Packard

**Detective:** Who do you think murdered Webster?

**Packard:** Rich had a lot of enemies and some of them were right inside that think tank.

**Detective:** And who would that be?

**Packard:** I don't want to implicate anybody, but when I was using the restroom, I overheard a meeting in Rita's office between her, Hugh and Justin. They were planning to steal the new program.

**Detective:** Did they mention anything about killing Webster?

**Packard:** That's all I heard. I didn't even know if they were serious.

---

Dee Leeter

**Detective:** What was the meeting about with Hugh and Justin?

**Leeter:** I'm not sure. They wanted me to debug a program they had been working on, but I couldn't find a darn thing wrong with it. It was a total waste of time.

**Detective:** Who was in the room when you returned from the restroom?

**Leeter:** Both Hugh and Justin were there when I got back. Justin had left the same time I did. Hugh was deep into his program. I don't even know if he saw me come back.

---

Rita Wright

**Detective:** Did you see anybody between 5 AM and 6 AM?

**Wright:** While I was busy fixing myself up around 5pm Justin Coder stopped by on his way to the restroom. He helped me open a jar, because I'm such a weakling, and asked to borrow something to read. I gave him my copy of *In Style*. He didn't look too pleased.

**Detective:** Did you see him go in there?

**Wright:** I certainly heard him. The walls are like paper. He returned my magazine about 10 minutes later without even a thank you and I made sure to throw it out.

---

## LAB REPORT #1

Analysis of yellow gloves found under bed in Hugh Gottmale's office: Gloves are standard work gloves made of cotton and polyester fibers. Fibers are a match for those found on the mouse cord presumed to be the murder weapon.

---

## Toxicology Report

### Webster, Richard Case#7328651

Blood and tissue analysis of the victim shows the presence of the following controlled substances:

- **Alcohol:** His Blood Alcohol Level was 0.03, equivalent to one to three drinks within the last 2 hours of his life.
  - **Triazolam:** Better known as *Halcion* a drug used as a sleep aid. Levels found would not cause death, but coupled with alcohol would cause deep unconsciousness for a matter of several hours.
- 

## Evidence

### Plaque on wall of Dee Leeter's Office:

Ms. Leeter apparently is an accomplished arm wrestler. This award signifies 1<sup>st</sup> place in a national women's competition.
